To the Speakers

Given the number of talks within each session and the full congress schedule that has been arranged, each session chair will be asked to keep speakers strictly to their allotted time. *Please note that at least 5 minutes of your allotted time should be dedicated to audience discussion.*

Please provide your PowerPoint presentation on the morning of your session to the congress registration desk in the FAVORITE Entrance hall (suggested), or take it directly to the congress hall prior to your assigned session.

We recommend that for safety, you bring your presentation in several formats (i. e. Flash drive and CD/DVD). All presentation materials should be available prior to the beginning of each session.

To make it easier for the translators, we would like to ask you to send us your presentation, even if it is a draft version, prior to the congress!
